### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Skinner et al (US Patent 6,679,236) teaches an ignition device for an engine having a tubular housing for housing components of an ignition plug and coil. This reference teaches using two separate axial cases (50,54) which are appear to be held by a friction fit with interlocking grooves (not numbered). However, this type of arrangement does not include flanges which require an axial force to hold the cases together.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
